Electricity Supply Reconciliation Mechanism (ESRM)	Applicable prices located on the Supply Service Charges Statement found at Electric Rate Statements .			
Transmission Revenue Adjustment	Charge varies by month. Applicable prices located on Electric Monthly Rate Statements .			

*Only applies if the customer takes electricity supply service from the Company.

Determination of Demand

The Distribution Delivery Demand charge is designed to recover transmission and distribution costs. The demand for Distribution Delivery shall be determined by using the highest (peak) demand measured over ANY 15-minute interval during the month (all hours), but not less than the demand contracted for in Form C, nor less the demand contracted for in Form J. For voltage levels less than 22 kV, the ratchet provisions are also in place, if applicable.
